DETAILED ACTION

Election/Restrictions

Applicant's election of claims 1, 5-7, 16, and 20-22 in the reply filed on June 24, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 2-4, 8-15, 17-19, and 23-30 to species non-elected without traverse. Accordingly, claims 2-4, 8-15, 17-19, and 23-30 have been cancelled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

As for claim 5, the prior art does not teach or fairly suggest the use of an image processor for compensating gradation that includes a plurality of low pass filters, a coefficient calculating means for compensating the pixel data of the image signal by calculating a coefficient based on the combined signal of the output of the low pass filters, and each filter having a weighing coefficient and wherein the sum of the weighing coefficients equals one.

As for claim 20, the prior art does not teach or fairly suggest the use of an image processor for compensating gradation that includes a plurality of low pass filters, a coefficient calculating means for compensating the pixel data of the image signal by

calculating a coefficient based on the combined signal of the output of the low pass filters, and each filter having a weighing coefficient and wherein the sum of the weighing coefficients equals one.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
